

## Equanimity presents Houston's Kaposta Brothers and Theresa "MoRae" Moore: **The Real Deal**

May 15, 2016

What do get when you mix O.G. (Older Generation) with N.G. (New Generation—Y, Millennials+) **The Real Deal!** *Equanimity*, the makers of *Love Bug*, *Hug A Mug of Joy* and *Atomic Dog*, present three of Houston's rising stars; *Julian Kaposta & Theresa "MoRae" Moore* on vocals and *Kristian Kaposta* on lead guitar. The *Kaposta* brothers are sons of legendary, multi-genre artist *Eric Kaposta*, who was a writing partner of R&B crooner *Gene Chandler*. Both have performed, fished and recorded with Rock & Roll Hall of Famer, *George Clinton*. *MoRae* has risen from the Houston music scene from *Matthew Knowles's* weekly open mic competition. This trio is the real deal, brandishing Houston roots and tons of fresh, soulful, new generation funk. **The Real Deal** is *bigger than a heart-ache or pill* and arrives on the tails of a sassy, raw trumpet introduction by veteran jazz trumpeter *Johnny Walker* who hails from the *Lionel Hampton Big Band*. O.G. + N.G. = **The Real Deal**, a tale of wisdom....

*Without my doing — I would not be being  
My second being is my doing...I did my best and now I be  
Wisdom is the like the oak tree or sequoia  
It is strong from my song  
Strong from my years of doing...and will last in my years of being  
This is the Real Deal  
This is the Real Deal  
...bigger than a heartache or pill  
This is the Real Deal*

Two producers from the *Equanimity Band* and life-long friends, *David Lee Spradley* and *Diem Jones* combined their talents to create the song along with the aforementioned artists, *Jones* writing lyrics and *Spradley*, contributing the music track and lyrics. *Spradley* has been the keyboardist with *Earl Klugh* for the last 23 years and prior to that was a principal keyboardist with *George Clinton*, where he wrote the music to the infamous **Atomic Dog**. *Diem Jones* is a multi-genre artist, arts administrator and entrepreneur. *Jones* served as photographer and art director for *George Clinton* in addition to collaborating as a songwriter and serving as Mr. *Clinton's* Wellness Consultant. Additionally, as a poet and leader of the *Equanimity Band*, *Diem Jones* is the Executive Director and co-founder of *Voices of Our Nations Arts Foundation*.

Kick back, let this OG~NG Funk tingle your eardrums and offer a fresh perspective for a cross generational journey. **The Real Deal** is available on [iTunes](#), [Apple Music](#) and can be downloaded directly from the producers @ the [Equanimity Store](#).
